Grow something great

Maty

12d

Very underrated proposal. People should take this serious.

 Reply

“For something new to take place there must be a nucleus of really devoted, serious people, who go through to the very end.

After going through all these things, they say, ***“Here is something I am going to pursue to the end.”***

— JIDDU KRISHNAMURTI

A central graphic design consists of several overlapping circles in shades of green and yellow. A large yellow circle in the upper right contains a portrait of Lameen Abdul-Malik, a man with a beard wearing a blue blazer over a pink shirt. To the left and below are smaller circles containing icons: a white leaf on a black background, a white bird on a black background, a white triangle on a black background, and orange molecular structures on green and yellow backgrounds. The largest circle at the bottom right is dark green and contains white text.

Lameen Abdul-Malik
Nobel peace prize
ex-United Nations

Please use bank account and apply to traditional companies. As BitDAO, I think we've done enough help. You can consider alternative daos.

I'm pretty sure the naysayers don't know what carbon rights are and it's definitely been a very impressive collaboration
